Trailhead Analytics - Product FAQ

Pricing and Plans

Trailhead Analytics offers three plans: Starter at $49/month (up to 3 team seats), Growth at $199/month (up to 15 team seats), and Scale at custom pricing (unlimited seats, dedicated account manager).

All plans include a 14-day free trial; no credit card is required to start the trial.

Annual billing receives a 20% discount compared to monthly billing on the Starter and Growth plans.

Overage on the Growth plan's included 1 million monthly events is billed at $0.002 per additional event.

Data Retention and Export

Raw event data is retained for 90 days on the Starter plan, 12 months on the Growth plan, and indefinitely on the Scale plan.

Aggregated dashboard reports are retained indefinitely on all plans, regardless of raw event retention.

Data can be exported as CSV or JSON at any time from the dashboard; the Scale plan additionally supports a direct Parquet export to a customer-owned S3 bucket.

All customer data is stored in US-based data centers by default; EU data residency is available on the Growth and Scale plans at no extra cost.
